- pateliya.adnc06@gmail.com
- github.com/ChiragPateliya06
- Born: January 2006

TECHNICAL SKILLS

WEB DESIGNING

HTML5 ■ CSS3 ■ JavaScript ■ Layouts

PYTHON PROGRAMMING

Intermediate Scripting ■ Automation ■ Algorithms

SQL DATABASES

Relational Schemas ■ Queries ■ Optimization

CORE LOGIC

Python ■ SQL ■ Basic C ■ Basic Java

LANGUAGES

- English ■ Fluent
- German ■ Basic
- Gujarati ■ Native

INTERESTS

- Web Designing
- Algorithmic Coding
- Database Modeling
- UI/UX Prototyping

ABOUT ME

I am a BSc. Computer Science student at Gisma University of Applied Sciences with a strong passion for web development and software engineering. I combine creative webpage design capabilities with strong foundation Python programming, database engineering in SQL, and fundamental logic in C and Java. I focus on developing clean, responsive interfaces built on reliable logic patterns.

EDUCATION

Bachelor of Science in Computer Science

Since April 2025

Gisma University of Applied Sciences ■ Potsdam, Germany

Higher Secondary Certificate (HSC) – 12th Grade

Completed 2023

Board Certification

Completed Higher Secondary Certificate (12th Grade) with a science curriculum emphasis, focusing on Mathematics, Physics, Chemistry, and Computer Application basics.

CERTIFICATIONS

Webpage Designing Certificate

Credential Awarded

ITC Mogri

Certified for webpage design skills covering HTML5, CSS3, and JavaScript logic. Focused on creating user-friendly, responsive interfaces with clean layout semantics, responsive grid frameworks, and simple client-side event interactions.

Intermediate Python Programming Certificate

Credential Awarded

ITC Mogri

Certified in intermediate Python programming concepts. Focused on logic design, utility scripting, file processing pipelines, algorithm structures, and basic object-oriented programming concepts.

SKILL HIGHLIGHTS

Web Designing

HTML5

CSS3

JavaScript

Python

SQL

SQL Databases

Relational Schemas

C Programming

Java

Git

FOCUS AREAS

- Frontend Layouts
- Scripting Automation
- Database Schemas
- Logic Flows
- Responsive UI/UX

PERSONAL STRENGTHS

- Analytical Thinking
- Problem Solving
- Team Collaboration
- Continuous Learning
- Attention to Detail

TECHNICAL TOOLS

- Visual Studio Code
- Git / GitHub
- command-line tools
- Bootstrap 5

FEATURED PROJECTS

Responsive Webpage Showcase

Active Git Repository

HTML5 ▪ CSS3 ▪ JavaScript ▪ Grid Layouts

- Developed a comprehensive repository containing creative webpage layouts, exploring modern CSS grid layouts, flexbox structures, and clean visual patterns.
- Designed interfaces featuring smooth scroll mechanics, CSS variables for global coloring, and subtle interactive animations.
- Implemented native JavaScript features like responsive menu states, interactive filters, and scroll tracking to optimize user navigation.

Python Programming Suite

Active Git Repository

Python ▪ Scripting ▪ Process Automation

- Programmed a modular suite of intermediate Python scripts to automate administrative tasks, parse structured text, and perform local file operations.
- Utilized standard libraries for data management, structured logic trees, and exception handling protocols.
- Focused on writing reusable functions, optimized loop logic, and clear documentation structure.

Relational Database Schemas

Active Git Repository

SQL ▪ Database Modeling ▪ Schema Optimization

- Designed and structured relational database schemas, including Entity-Relationship Diagrams (ERDs) and schema normalization models.
- Wrote optimized SQL queries utilizing complex join operations, filtering clauses, and grouping functions.
- Profiled query operations to analyze and improve index utilization, table relations, and transaction speeds.
